Winter Maintenance Reminders

Snow Removal

- Higher speed roads with heavier traffic are plowed first based on Provincial Maintenance Standards.
- Property owners are responsible for removing snow that accumulates at the end of driveways as a result of road maintenance.
- Disposing of or piling snow from private property onto a highway or municipal lands, including ditches, is strictly prohibited.
- Sand is only applied to roads at major intersections, hills, and corners during freezing rain/icy conditions.
- Sand is not applied to straight-a-ways as it is the driver's responsibility to drive according to weather and road conditions.

Winter Parking

- During the winter months, parking on the road is strictly prohibited where it interferes with snow removal practices. The township does not have an allotted time of day to which parking is allowed as snow removal can happen at any/all times of day. Cars that are found to be parked on the roadside during snow removal operations will be ticketed.

Hazards

- Ensure children refrain from building tunnels or forts inside snow banks by roadways.
- The Township owns and maintains municipal road allowances including roads and shoulders which need to be clear of landscaping and other stored materials. Residents are asked to keep this area clear of stored items and other obstructions. Items left within the road's allowance may be damaged during winter maintenance, and the Township is not responsible for any resulting damage.
- The township will not replace items (including mailboxes and garbage bins) that are damaged as a result of snow accumulation or force of snow off the plow blade. Please be sure to place items far enough back onto your property to keep them out of reach of this area to avoid damage or destruction.

Beaches in Tiny

Reminder: personal items cannot be left unattended/overnight on municipally owned property. Waterfront structures such as boat lifts on the lakebed are not permitted.

Tiny Fire Reminders

CO Alarms

Under the Ontario Fire Code all residential occupancies (homes, apartments, etc.) that have a fuel burning appliance, fireplace, or attached garage, must have:

- a carbon monoxide alarm adjacent to each sleeping area, and
- a carbon monoxide alarm on each storey (floor) without a sleeping area.

Learn more at tiny.ca/FirePrevention.

Need help to understand where to put your CO alarms? Book a free in-home fire safety inspection with Tiny Fire at tiny.ca/Fire or by calling 705-322-1161.

Change your clocks, check your alarms!

Daylight Savings Time ends on November 1st. When you set your clocks back an hour, it is a great time to check your smoke and CO alarms.
